

Peer review

DOI: 10.22592/o2017n30a13

The Publications Department, School of Dentistry, Universidad de la República, would like to acknowledge the arduous and essential work done by the reviewers who have evaluated papers in *Odontoestomatología* in the 2014-2017 period.

Though it is true that several reviewers consider it an honor be asked to evaluate a scientific paper to improve its quality, thus supporting knowledge dissemination and the advance of science, they must be explicitly acknowledged, which in turn strengthens these institutional evaluation processes.
